

RALPH MIGUEL COMPLIDO

SOFTWARE ENGINEER

Los Angeles, California, United States, Los Angeles 90031, United States | 3232865412 |

rcomplido.la.usa@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Results-driven Software Engineer with hands-on experience building and deploying full-stack web applications using C#, ASP.NET Core (.NET 8), Angular, and SQL Server/Azure SQL. Skilled in designing clean RESTful APIs, implementing authentication/authorization (ASP.NET Core Identity + bearer tokens), and applying strong fundamentals (OOP, data structures & algorithms, validation, testing). Comfortable in Agile teams delivering end-to-end features from database to UI using DI and layered architecture. B.S. in Software Engineering; committed to continuous learning and shipping reliable software that improves real business workflows.

TECHNICAL PROFICIENCIES

Languages:	C#, TypeScript, SQL, Python, HTML/CSS
Frameworks:	ASP.NET Core, Entity Framework Core, Angular
Cloud/DevOps:	Azure, Docker, Azure Container Registry, Azure Container Apps, Git
Concepts:	REST APIs, OOP, RBAC, Authentication & Authorization, Agile / Scrum, SDLC, Business Process Automation, Data Validation, Layered Architecture

CERTIFICATIONS

- ITIL 4 ,
- CompTIA Project+ ,
- AWS Certified Cloud Practitioner

PROFESSIONAL EXPERIENCE

Software Engineer, CodeLogix

Oct 2025 — Present

Los Angeles, California, United States

- Developing a secure, cloud-based accounting web application for a client using ASP.NET Core Web API (.NET 8), Angular, SQL Server/Azure SQL, Docker, and Azure.
- Implemented authentication and authorization using ASP.NET Core Identity, bearer tokens, and RBAC for Admin, Bookkeeper, and ReportViewer roles.
- Built secured APIs, Angular route guards, Chart of Accounts CRUD, and core accounting workflows.
- Implemented double-entry accounting with journal entries, balanced debit/credit validation, and transaction integrity rules.
- Developed reporting features and deployed the full-stack solution using Docker, Azure Container Registry, Azure Container Apps, and Azure SQL.

Software Engineer, MCGI Hub

Apr 2025 — Oct 2025

Remote

- Contributed to an enterprise platform delivering virtual meetings and services to an international user base.
- Helped design and develop microservices for Identity, Attendance, Profile, Location, Privacy, Configuration, and Metadata using ASP.NET Core, Entity Framework, and SQL Server.
- Applied Clean Architecture and REST API best practices to support scalable backend services.
- Developed key parts of the Configuration Management Service, including database, API, and Angular/Metronic UI components.
- Performed cross-browser testing and collaborated with a distributed Agile team using Git and issue tracking.
- Collaborated in a Scrum-based SDLC environment through sprint planning, daily stand-ups, and backlog grooming.

Automation Engineer / Senior Accounting Specialist, Strength United

Jul 2019 — Apr 2025

Northridge, CA

- Designed and implemented automation solutions to streamline accounting, payroll, reporting, and grant management processes.
- Automated financial analysis, forecasting, employee timesheet preparation, and signature request workflows.
- Built automated cost allocation processes for operating expenses and personnel costs across multiple grants.
- Supported billing, funder reporting, reimbursements, payroll, accounts payable, documentation, timekeeping, and IT-related needs.
- Improved efficiency and accuracy by replacing repetitive manual tasks with automated workflows.

Operations Manager, Dazzlingrock.com

Oct 2012 — Jul 2019

Los Angeles, CA

- Automated high-volume order fulfillment workflows for thousands of weekly orders, improving speed and reducing manual work.
- Streamlined shipping operations by automating shipping label generation and tracking number updates across multiple marketplaces.
- Built batch processes for printing barcodes for thousands of products at once.
- Improved inventory and order management workflows to support high-volume e-commerce operations.
- Reduced errors and increased efficiency by automating repetitive manual processes.

EDUCATION

Western Governors University

Jul 2024 — Jan 2026

Bachelor's degree in Software Engineering

UCLA Extension

Jan 2017 — Jan 2018

Alumni in Full Stack Web Developer
